Join the Charlottesville Unix Users Group for the latest in their series of free seminars on Open Source Software:

Open Source Software at Work
In Business, In Education, and In Science

A series of short presentations with demonstrations of ongoing projects and production systems that make use of GNU/Linux, FreeBSD, and some of the best Open Source Software applications available.

Monday, October 28, 2002 at 7:00pm
Auditorium of the National Radio Astronomy Observatory
on the Grounds of the University of Virginia
